

Highlights of the November 15, 2012 CCMB Board of Directors Meeting

The Board of Directors of CancerCare Manitoba (CCMB) at its regular meeting on November 15, 2012:

- Welcomed Dr. Shahida Ahmed, newly-elected President of the Medical Staff Association, and representative to the Board.
- Received a presentation by Kathryn Dyck, Manager of the Clinical Investigations Office, on the important role of clinical trials in the advancement of best treatment practices and how this translates into improved patient care at CCMB.
- Received a presentation by Dr. Donna Turner, Provincial Director of Population Oncology, on the basics of epidemiology and how CCMB uses research data to better understand cancer and to effectively plan for the projected increase in the incidence of the disease.
- Reviewed and approved financial operating statements to September 30, 2012.
- Approved the recommendation to purchase of a new orthovoltage treatment unit.
- Approved the appointment of D. Samatte and G. Paziuk to the Community Advisory Council.
- Endorsed the Quality and Patient Safety Committee's interest in having a special focus on communication in their future deliberations.
- Received and considered reports from the Patient Navigation Program and the Surgical Oncology Program.
