229 of the 1565 women screened at mobile sites in the region in 2012 were 70 years of age or over

RHA Screening Participation Rates

- Screening rates for women 50-69 years of age

The Program's goal is to screen 70% of the population of women 50-69 years of age every 2 years.

It takes the effort of the entire community to make mobile screening a success. Here are some of the regional highlights for 2012:

- Compared to 2010:
 - Regional breast screening rates remained the same (56%).
 - The population of women 50 to 69 years of age increased by **799 women** (10,402 in 2010 to 11,201 in 2012).
 - BreastCheck screened **488** more women 50 to 69 years of age (5831 in 2010 to 6322 in 2012)
 - The following communities (with 50 or more women ages 50-69) increased their screening rates by 5% or more:
 - La Riviere
 - Darlingford
 - Manitou
 - Morden
 - Elm Creek
 - St. Claude
 - Plum Coulee
 - Winkler
 - Sanford
- C.W. Wiebe Medical Centre in Winkler and Agassiz Medical Centre in Morden have been participating in a direct booking system for their under-screened patients. Thank you for encouraging women to be screened!
