177 of the 1515 women screened at mobile sites in the region in 2012 were 70 years of age or over

RHA Screening Participation Rates

- Screening rates for women 50-69 years of age

It takes the effort of the entire community to make mobile screening a success. Here are some of the regional highlights for 2012:

- Compared to 2010:
 - Regional breast screening rates decreased by **1%** (60% to 59%).
 - The population of women 50 to 69 years of age increased by **357 women** (6144 in 2010 to 6501 in 2012).
 - BreastCheck screened **144** more women 50 to 69 years of age (3673 in 2010 to 3817 in 2012)
 - The following communities (with 50 or more women ages 50-69) increased their screening rates by 5% or more:
 - Landmark
 - Ste. Agathe
 - Dufresne
 - Lorette
- With the construction underway at the Community Health Services Building in Steinbach, we were not able to return to this space this year. Thank you to the Emmanuel Evangelical Free Church for hosting our mobile clinic.
- Steinbach Family Medical Centre in Steinbach participated in a direct booking system for their under-screened patients. Thank you for encouraging women to be screened!
- Once again, the lack of space in Ste. Anne provided us with the opportunity to offer a site outside of the community. Ste. Anne women were invited to a new site in Lorette. Thank you to Lorette for hosting a very successful clinic!
